Change,” part 3, “Responses”

Show “A Sociology of Climate
Change,” part 3, “Responses”

Discussion

Discussion

Organize student research projects

Homework after Session 1

[the two session scenario
assumes several weeks
between the two sessions –
time for students to do some
research and prepare to
report their findings]

X

Students do research on one of the
25 facets of climate change;

Students work on assigned product
that will report their findings:
a paper?
a youtube style video?
an oral presentation?

Session 2

X

Student presentations:
Students show their videos
- or -
Students give short talks,
on their findings
